

INFORMATION FOR PARENTS - ROBLOX

Following some worrying news about the dangers of the popular children's app **Roblox**, please find attached a parent's guide produced by 'Parent Zone'. If your child does play this game, please read the guide carefully and follow the instructions to set up privacy settings.

We always work hard in school to ensure that children are knowledgeable about the dangers of online games and apps but we must work together in order to keep our children safe. Please do not hesitate to contact us if you have any concerns or you would like any further support with e-safety.

Kind regards
